It was one of the hardest decisions in my life but I am happy to say that I have no regrets in placing my husband in Mecwacare Park Hill care. How fortunate am I to say that it was our lucky day, the day we found Mecwacare Park Hill in Mornington

Very caring group of staff. Have been very sensitive and given my mum lots of "their time" since my dad died at Mecwacare Park Hill last October

My mother was a resident in a Dementia Specific Aged Care Facility in Victoria for the last 5 months of her life. The facility attempted to provide individual care for each patient however were limited in their ability to achieve this at times, usually related to having minimal staff available. This was obvious during meal times, during personal care attention, overnight and of course, as is the case with sufferers of dementia, at sundown. My family was very involved in my mothers care and regularly liaised with staff to address any issues raised. I did wonder at times about what would happen to residents who do not have supportive families and if the many day to day issues for these residents would be similarly resolved. In general, my family was happy with the care provided during my mothers stay.
